

Kerensky Leads His Troops in Person

KERENSKY REPORTED TO HAVE ADVANTAGE OVER RUSS REBELS

Dispatches, However, Are Conflicting and Some
Speak of Compromise

WHOLE NATION UNDER MARTIAL LAW

Premier Heroically Marches Out From Petrograd To Battle The Cossacks

(International News Service.)

Stockholm, Sept. 13.—With Premier Kerensky leading his troops in person, a decisive battle is now expected between the loyal republican forces and the rebel Cossacks under Gen. Korniloff, said a Petrograd dispatch published in the Svenska Vagbladet today. It added that Premier Kerensky, who has now taken over command of the loyal Russian army, marched at the head of his men when they left Petrograd to meet Korniloff's forces and to intercept the advance of the rebels on the capital.

(International News Service.)

Copenhagen, Sept. 13.—Death probably will be the punishment meted out to Gen. Korniloff, leader of the Russian military revolt, if he is captured by the Kerensky forces. Advances from Petrograd today stated that the provisional government has decided to try Korniloff and his fellow confederates by court martial when they are captured.

Money Decides War Says Steel Trust Head at Chicago

(International News Service.)

Chicago, Sept. 13.—Money and not men will decide the issue of the present war and the side with the most money will win, in the opinion of Judge E. H. Gary, chairman of the board of directors of the United States Steel corporation, who is in Chicago today.

"Not until there have been changes in positions and conditions will there be any practical basis for settlement of the war insofar as signs now show," said Judge Gary. Judge Gary also predicted a long and bloody war.

Picked Gunners Join Pershing Behind Lines

(International News Service.)

Washington, Sept. 13.—Cable dispatches from France passed by the American censor which told of the arrival today of additional artillery units of Gen. Pershing's forces at the advanced training base near the French battle front, pleased officials here.

It was pointed out that these detachments comprised the picked gunners of the army, men who have had extended training. They have taken over the field pieces and permanent big guns already set aside for them and it is thought here that very little time will have to be devoted to them in practice.

Old Friend Castro Shows Up Again

(International News Service.)

New York, Sept. 13.—Cipriano Castro, former dictator of Venezuela, arrived here today from Vera Cruz on the Spanish steamship Manuel Calvo. On a previous trip to this country Castro was barred admittance because of certain political activities in Latin America.

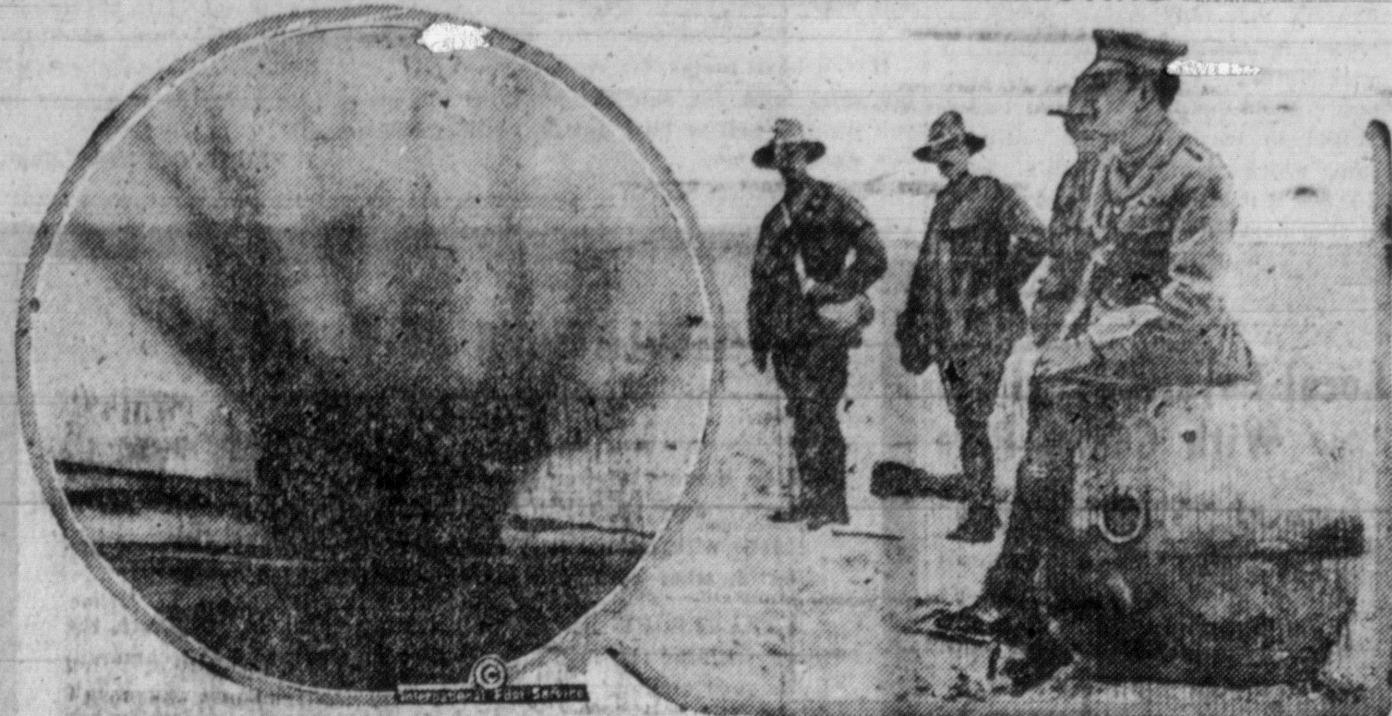

Dynamite Found in Army Camp Reveals Widespread Anarchist Plot

(International News Service.)

Camp Devons, Ayers, Mass., Sept. 13.—Following the discovery of a large quantity of dynamite in a national army camp here, Capt. H. M. Bowen, in charge of the secret service here, today declared that a widespread anarchist plot against the government had been uncovered. As a result of the discovery here, it was stated that plotters would be sought in the various army encampments throughout the country.

Washington Denies Swede Charges

EXPLODING GERMAN SEA MINES IN PALESTINE

Many German sea mines have been found along the coast of Palestine, and the Australian soldiers there have great sport exploding them after partly burying them in sand.

MUSCLE SHOALS BANNER BOOSTER AGENCIES MERGE; HAS GOOD CHANCE TRIP TOMORROW NOW THE LARGEST ASSERTS ALMON MADE TO MOULTON IN TWIN CITIES

EIGHTH DISTRICT CONGRESSMAN HERE EN ROUTE TO CAPITAL. TWO PLANTS BE LOCATED.

While not over-confident as to the outcome, Congressman E. B. Almon believes that Muscle Shoals has an equal chance for selection as the site of the experimental government nitrate plant and of a powder plant as well. The eighth district congressman was here yesterday en route to Washington, leaving over the Southern railway this morning at 1 o'clock for the national capital.

"Col. Joyce, of the war department, whom I accompanied to Alabama, was entrusted with the mission of inspecting a number of sites for the proposed government nitrate plant," said Judge Almon. "The plant to be erected is an experimental one for the fixation of atmospheric nitrogen, and is to be operated by steam. It is a land plant, in fact, and for its location a large level acreage is required. In conjunction with the nitrate plant, the national government is to erect a powder mill, and the two will be located close to each other. Muscle Shoals offers a splendid location for these government industries, as the acreage is available there, the climate is satisfactory and the phosphate fields are conveniently close. Col. Joyce seemed pleased with the Muscle Shoals site, but of course, gave no intimation of his probable recommendation. He will inspect the Black Warrior site and also one at Chattanooga. The latter is not a formidable contender, as the people of Chattanooga are for Muscle Shoals."

Talks of the War.

Judge Almon, in discussing the war outlook, stated that the feeling in Washington was that the struggle would not end before next summer, when the allies launch their big offensive, aided by the Americans.

"The national capital is impressed with the gravity of the situation, and is preparing for a long struggle," said Judge Almon. "At the same time there is a feeling that peace may come some time next year, when the United States has its forces in the field and the allies are prepared for another desperate drive through the German lines in France. Confidence is expressed everywhere that the allies will win."

How's This? Russ Lick The Germans

(International News Service.)

Berlin, Sept. 13.—The German war office today admitted that a division of German cavalry forces had been compelled to retreat before strong Russian pressure on the Riga front.

MORE THAN TWENTY CARS WILL VISIT CAPITAL CITY OF LAW- RENCE COUNTY.

FRIDAY'S ITINERARY.

Kitchin Mill—9 a. m.
Red Hill (Picnic Grounds)—10.
Moulton—11 a. m.
Landersville—1 p. m.
Wren—2:30 p. m.
Mountain Home—3 p. m.

With the dust cut from their throats by a good day's rest, the Albany Boosters will leave tomorrow morning at 8 o'clock for the banner trip of the week. They will traverse a large section of Lawrence county, with Moulton as the main objective. So keen is the interest in this pilgrimage that more than 20 cars have already signed up to go—the largest number for a single day—and it is probable that this number will be increased to 50. One hundred representative business men are expected to be in the party, and every Booster is requested to carry his lunch, as it would be too big a tax on the hospitality of Moulton to feed so large a crowd.

The first stop made on yesterday by the Albany Boosters was Neal (Mattock's Store), when the day's good fellowship meetings and "get acquainted" opened with a rebel yell from J. J. Stroup, mounted on a fine horse, waving Old Glory and bidding the visitors welcome. Cheers rent the air, bands played and after hand shaking the start was made for Danville. This town lies in one of the most fertile sections of the county. With the growing crops and prosperous business houses, Danville presents an appearance of progress and enterprise fair to look upon. Col. Tennis Tidwell addressed the people here and was warmly received at the home of his boyhood. Col. Tidwell was followed by Mayor E. C. Payne and A. G. Patterson, the speakers urging their hearers to close hands with Albany in building up a metropolis in North Alabama. They promised the farmers to make for them in Albany a market for cotton and corn at prices higher than could be had elsewhere and to extend to all visiting people a most cordial welcome.

Big Crowd at Hodges.

At Hodges' Store, Lawrence county, the Boosters were met by the biggest crowd of the day. The people extended every courtesy and entered into the spirit and objects of the visits to cement friendships and encourage closer relations.

F. A. Bloodworth, cashier of the Morgan County National Bank, addressed the crowd on banking matters and assured the people that Albany had two strong banks that were ready and willing to assist the farmers financially, inviting them and their families to visit the city where a cordial reception awaited them. A. G. (Continued on Page Three)

Announcement was made today of the merging of the Commercial Insurance Agency, owned by the Central National Bank, and that of Penney & Whitman. The merged agency will be under the management of Lamar Penney and E. D. Whitman, and will be the largest individual agency in the Twin Cities. It was stated today, and probably the largest north of Birmingham.

Both of the agencies have done a large and growing business, and it is expected that under the new arrangement will have improved facilities for protecting the interests of their clients.

U-boat Toll is Lowest Since The Campaign Began

London, Sept. 13.—A marked decrease in the destruction of British merchant vessels by mines or submarines is indicated in the weekly admiralty statement, issued last evening. Twelve vessels of more than 1,600 tons were sent to the bottom, compared with twenty in the large and three in the small category sunk the previous week. The statement shows that four fishing vessels also were lost.

The admiralty statement shows the smallest number of large British vessels sunk by mines or submarines since Germany last February began her intensified submarine campaign. The previous low record was for the week of March 11, when thirteen vessels of more than 1,600 tons were lost.

(International News Service.)

London, Sept. 13.—The 18 British ships, exclusive of fishing boats sunk by submarines last week, brings the total number of British vessels destroyed since March 1 up to 719, according to figures compiled here today.

Shipping Board In Another Row

(International News Service.)

Washington, Sept. 13.—The navy department and the federal shipping board today are at sword's points over the operations of the merchant fleet of the nation. Naval officials are demanding that the operations of the big fleet be turned over to them. The shipping board and the emergency fleet corporation insist this is unnecessary. Both have gone to the house corporation committee and demanded the money to provide for the training of seamen with which to man the vessels. Organized labor is expected to side with the shipping board.

ARGENTINA READY TO BREAK RELATIONS WITH THE GERMANS

Sharp Note To Berlin Demanding Disavowals
Is Being Prepared

MINISTER IS HANDED PASSPORTS

Buenos Aires Riots and Destroys Hundreds of Thousands of German Property

(International News Service.)

Washington, Sept. 13.—The state department today denied statements by the Swedish foreign minister that the United States had practiced duplicity similar to Sweden's in that country's relation with Germany and Argentina in forwarding dispatches through Sweden to Turkey before diplomatic relations between the United States and Turkey were broken.

(International News Service.)

Madrid, Sept. 13.—Secretary Contrelas of the Spanish legation at Stockholm has arrived at San Sebastian with a note from the Swedish government proposing a conference of neutral powers, said a dispatch from San Sebastian today.

(International News Service.)

Buenos Aires, Sept. 13.—Troops patrolled the streets today to prevent further anti-German demonstrations and to protect German property. A strong guard has been placed around the German and Swedish legations.

It was learned from an authoritative source that the Argentine government would send a sharp note to Berlin demanding disavowal of Count Luxburg's action and other demands. Hundreds of thousands of dollars worth of German property has been destroyed here and many persons injured in street rioting.

COUNT VON LUXBURG IS HANDED PASSPORTS.

(International News Service.)

Buenos Aires, Sept. 13.—The Argentine government today sent to the German legation passports to be delivered to Count Luxburg, the German minister in Buenos Aires.

The Argentine foreign office also sent a communication to the German foreign ministry, demanding an explanation of Count Luxburg's action in sending the secret code messages to Berlin through the Swedish legation.

It was officially announced here that if Germany failed to disapprove of Count Luxburg's action, Argentina would recall her minister at Berlin. If the Berlin government disapproved of his course, the status quo would be maintained.

The note sent by Foreign Minister Pueyrredon to Count Von Luxburg, in which the German minister was tendered his passports, reads:

Mr. Minister:

You having ceased to be persona grata to the Argentine government, that government has decided to deliver to you your passports, which I transmit herewith by order of his excellency, the president of the nation.

The introducer of embassies has instructions to assist you in your immediate departure from the territory of the republic. God keep you.

(Signed) H. PUEYRREDON.

To Count Karl Von Luxburg, envoy extraordinary and minister plenipotentiary of the German empire.

ATTENTION, HOME GUARDS!

You are hereby given notice that tonight will be drill night. Your presence is requested.

B. L. MALONE, Maj. Com.
By R. T. SHEPPARD, Adj.

Fifty Men Lost When Big Liner Goes to Bottom

(International News Service.)

Washington, Sept. 13.—The Atlantic Transport Company today received a cablegram from London confirming the sinking of the steamer Minnehaha off the Irish coast last Friday by a submarine. No details were given.

(International News Service.)

New York, Sept. 13.—Reports brought here today of the sinking of the Atlantic Transport liner Minnehaha, off the Irish coast last Friday, said that of her 140 officers and men, 50 were lost. Some were killed in the engine room by the explosion and others drowned. Among the victims were 12 officers and engineers believed to include First Officer Pierce, Purser C. A. Willis and the ship's doctor. The Minnehaha, a twin screw vessel of 13,700 tons, left this port five weeks ago with a vast quantity of munitions. She was on her way back when attacked.

American Red Cross Driver Was a Hero

(International News Service.)

Paris, Sept. 13.—William Rogers Beal, of Pittsburgh, a Red Cross ambulance driver, whose death has just been announced, was killed by a train on the eve of receiving high honor from Gen. Neville, it was learned today. Gen. Neville had recommended a medal for the young American for bravery.

Lopez To Fly From Norfolk To Gotham With 12 Passengers

(International News Service.)

Norfolk, Sept. 13.—A flight from here to New York with 12 passengers in a 20-passenger aeroplane is being planned here today by Major Lopez, chief of Italy's flying corps. The trip will probably be made tomorrow or Saturday.

Major Lopez made a successful flight here yesterday with 11 passengers, remaining in the air eight hours and traveling 650 miles.

FOREIGN LANGUAGE PAPERS MUST TALK THE MARK.

A bill passed by the United States senate yesterday, having previously passed the House, requires the publication in a parallel column of a correct translation in English of any article published in the German language by a newspaper. The purpose of the law is to curb the waging of propaganda among German-American citizens by a press that is notoriously under the control of the Kaiser and his satellites and that constantly aims to interfere with American conduct of the war.

The very fact that the United States permits the publication in the German language of newspapers, even under the new restrictions, is a revelation of the desire on the part of this government to grant the broadest possible liberty even to its alien citizens. It is official notification that there is no desire on the part of the United States to limit the proper powers of the press. Only the propagandists, the vipers who crawl through the grass intent upon striking the nation that has befriended them, come within the range of the new statute.

There is every reason why America should seek to protect itself from the insidious foe who attempts to mold a hostile public opinion. The pacifists, those who love Germany more and America less, must now come out into the light of plain English in waging their campaigns for a peace favorable to the Fatherland.

JAPAN AND THE UNITED STATES.

(Washington Post.)
Aside from the arrangements now on foot whereby the United States and Japan may effectively co-operate in the common cause of the war, and in addition to these practical matters, the results of the visit of the Japanese mission to America are most gratifying and far reaching. From the moment the visitors from the Orient received the first cheer of welcome at San Francisco to the present hour, Americans have been glad to extend the hand of hospitality. California's cordial greeting was especially significant, since it was California that embarrassed the friendly relations of the two governments some years ago. The feeling on the Pacific coast has steadily changed for the better as the solid virtues of the Japanese people and government have been better understood.

It was in the House of Representatives, however, that a more certain expression of American feeling toward Japan was made by representatives from every part of the Union. The appearance of the members of the mission was the signal for an extraordinary outburst, which manifested America's admiration for what Japan has accomplished and what it stands ready to do in this war. America instinctively pays homage to courage and ability. It is especially glad to honor frugality, industry and a lively sense of self-respect. These universally admirable qualities are conspicuous in the Japanese people. They have raised Japan to high estate and opened for it a future glowing with promise.

The Pacific ocean is wide enough to give America and Japan all possible room for growth and prosperity, and deep enough to drown every possible cause of difference. In the spacious areas bordering upon that sea will be developed new civilizations, and the ancient barriers that made and

kept the east and west strangers will be swept away.

In the centuries preceding Columbus' voyage the European who actually traveled from Venice to a place in the Orient where he could gain authentic knowledge of Ceylon, the marvelous island beyond Cathay, was a man who could command the attention of kings and popes.

Since Columbus' time the way to Japan has been across the unending leagues of sea; a laborious voyage even now, and tending to prevent the people of either country from thoroughly understanding the other. Considering the natural obstacles, it is a marvel that the United States and Japan have not been interrupted in the development of friendship and understanding. In the days to come, with communication wonderfully improved by air travel, the two nations will laugh at the mistaken notions of the past, based upon isolation and ignorance.

With clasped hands, the United States and Japan look frankly at each other, recognizing that the east and west are both alike and not alike. In matters not alike, there is at least mutual respect for the other's rights. In matters that are alike, such as a sense of honor and justice, the two nations stand firmly together against a nation that deliberately and willfully, for sake of gain, threw away its honor.

Honor, justice and truth are not overcome by latitude or longitude. Japan and the United States understand each other.

THE SUBMARINE MENACE.

The report for last week issued by the British government shows that the number of merchant vessels sunk by German undersea boats is the smallest for any seven-day period since ruthless submarine warfare was begun. This is most cheering news, but not especially significant except as indicating the general trend of things. There were perhaps unusual causes for the ineffectiveness of the practical marauders for this special week. Perhaps the boats had been ordered home for a general overhauling. The big outstanding fact is that after a most thorough and complete trial the submarines have failed to destroy the world's commerce. Whether their average for a week runs large or small, the U-boats cannot under any possible circumstances make good the Kaiser's boast that he "would starve England to her knees." From now on the submarine campaign of frightfulness can be considered only as an annoyance, a nuisance to be abated.

TO MORGAN COUNTY FARMERS:

Even at this early season I have already had inquiries from Tennessee for some one-half dozen carloads of velvet beans. They want the beans in the hull—just dumped into the car without sacks. This shows that there will probably be a great demand for this crop this fall and winter. It is estimated that 16,000 acres of beans have been planted in Morgan county this year, and I believe that we will easily get one-half ton per acre. In South Alabama last year the first beans put on the market brought only about one-half as much as those put on the market during the late winter and spring. I suggest that farmers be careful about contracting their beans too early unless they can secure a good price. Velvet beans can be stored without injury from weevils or rats.

Probably the best way to market velvet beans is on "four legs" instead of on "four wheels," but owing to the fact that only a few farms are fenced in the county, doubtless a large tonnage will be gathered after frost. Good judgment could be exercised in marketing this valuable crop, which would probably bring \$150,000 if it all was gathered and put on the market.

ERNEST CARNES,
County Agent.

Local Boys Pleased With Camp Pike

To the Albany-Decatur Daily:
Please permit me a few words in your paper to the boys who are to follow on to camp.

Boys, this is as pretty a place as you ever saw and the officers are kind to you. It may seem strange to you for a few days, but I am one that can say I am satisfied. Mr. Tice and myself are room-mates and Mr. Tice has been so kind to Company G and the men in training.

Parents, friends and sweethearts may rest assured that the boys will be well cared for. Everything for health's sake is here. Hoping to meet you boys on arrival, I am,

Sincerely,
BENNIE L. WHITE.
Camp Pike, Arkansas.

Beautiful line of Coats, Suits, Dresses, Skirts and Nifty Blouses at the Beckett Value Co. opening Friday and Saturday. Mrs. C. O. Flippin, manager.

Mrs. Harry Pahf Dies At Briarfield, Ala.

Remains Will Arrive Here This Afternoon and Will Be Buried at Home of Sister.

The remains of Mrs. Harry Pahf, who died at her home at Briarfield, Ala., will arrive here this afternoon and will be conveyed to the home of her sister, Mrs. Frank Vaughan, in West Albany, where they will repose during the night. Tomorrow they will be conveyed to Morris Chapel, in Lawrence county, for interment.

Mrs. Pahf, who was Miss Edna Bane, a member of a prominent Lawrence county family, is survived by her husband and three children, also by a number of brothers and sisters. Two of her sisters, Mrs. Frank Vaughan and Mrs. Buck Landers, reside here.

If you have rooms for rent, houses for sale, farm for sale or anything you want to sell or buy, put an ad in our want column.

Kaiser Condoles Death Bulgar Queen

(International News Service.)

Amsterdam, Sept. 13.—The Kaiser today sent a message to King Ferdinand of Bulgaria, condoling with him on the death of the queen, who died in Sofia after a long illness.

School Notice

The Decatur public schools will open on Monday, the 17th, at 9 o'clock. Parents are earnestly urged to start their children the first day.

All high school pupils will please assemble at their respective rooms on tomorrow (Friday) morning, at 9 o'clock for classification and list of books.

Pupils of grades first to seventh inclusive will likewise come on Saturday at 9 o'clock. The teachers will be present to give the necessary information.

J. FLOYD COLLINS, Supt.

RESOLUTIONS OF RESPECT

To the Memory of Our Late Brother, E. L. Orr, who Died July 13, 1917.

It is with sorrow that we record the passing away of another member of Lodge No. 491, A. F. & A. M.

THEREFORE BE IT RESOLVED: That in his death the lodge sustains the loss of a worthy member, and the community a good citizen.

Be it further resolved, that we extend to his widow in her great loss our kindest feeling of sympathy, and commend her to Him who can heal the broken hearted and bind up all their wounds, and will make all things work together for good to them that love Him. While we know that mere words cannot lessen her grief in so great a bereavement, yet we speak the sentiment of our hearts when we say we sorrow with her.

To her we kindly say, "wait with patience, trust with confidence the Great Ruler of the Universe, and of the destinies of all mankind" for his mercy endureth forever.

Be it Resolved, That this copy be sent to the widow of our late brother, under seal of the lodge, and a copy be preserved for record.

Respectfully Submitted,

H. HARTUNG,
J. C. PERSINGER,
L. B. SMITH,
Committee.

House Wiring At a Bargain

Owing to the fact that so many have called on us to have their houses wired on the 12 months payment plan since we closed our recent campaign, we have decided to put on another campaign, beginning

Sept. 14th and ending Oct. 1st

The price will be \$2.00 per drop, cord and socket, and \$2.00 for snap switches. Where floors have to be taken up, the charge will be \$2.50. We hope everybody who expects to have their houses wired for the holidays will avail themselves of this extremely low price, with 12 months in which to pay, and to those who have old electric irons we will give you a new one for the old one plus \$3.00. The Iron which we'll give in exchange is worth \$4.50

To those who would like to make their christmas gift ELECTRIC wish to say, we will sell our present stock of chafing dishes, coffee pots, toasters and so on at the old price.

Corn Pain Stopped Quick

Corns Lift Right Off With "Gets-It" Blessed relief from corn pains is simple as A B C with "Gets-It." When you've been limping around for days trying to get away from a heart-breaking corn or bumpy callus, and everything you've tried has

only made it worse, and then you put some "Gets-It" on and the pain ceases right away, and the corn peels right off like a banana skin—"Gets-It" is a grand and heavenly feeling.
"Gets-It" has revolutionized the corn history of the world. Millions use it and it never fails. Ladies wear smaller shoes and have pain-free feet. We old fellows and young fellows forget our toes and feel frisky as colts. Everybody with a corn or callus needs "Gets-It." We will all walk about and enjoy ourselves as we did without corns. Get a bottle today from your druggist, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill. See to it you need to get it.
Sold in Albany and recommended as the world's best corn remedy by Prentiss-Dillhay Drug Co., and S. M. Thompson.

PROMINENT NASHVILLE WOMAN RALLIES FROM THE EFFECTS OF THREE OPERATIONS

Popular Southern Cooking Demonstrator and Holder of State Fair Diplomas, Tells How She Got On Feet Again

"The thing work is the grandest thing on earth," says Mrs. W. L. Arnold, well-known cooking demonstrator now residing at West Nashville, Tenn., "but when one is all run down after undergoing three serious operations, you can't do much work, or from anything else, for that matter. You don't have much heart to work."

"I know what it is to be run down as the result of operations and be yourself again, for I have had three of them."

"Wonders, however, have been done for me since I was operated on and I want the entire population of women to know that Vin Hepatica has done it. It is the very best tonic and builder up of run-down systems. I know it, for it certainly has done wonders for me and my oldest son and I gladly recommend it to any one who is weak and run down, whether from

operations or any other cause."

There are thousands of women in just the same condition Mrs. Arnold was in. You may be one of them, too. Such weakness as follows operations, overwork, and other heavy strain on the system, calls for the very best of tonic to strengthen and help build up the system. You don't want to take any chances.

Vin Hepatica is not only the Universal System Purifier, but a tonic for toning up and building up the system that is run down. It is Nature's own medicine. In fact, it is eight of the best natural herbal medicines known to medical science, all combined in one. It is also Nature's own medicine for bowel and liver trouble, indigestion, constipation. It goes right to the trouble and does the work quickly, mildly, thoroughly.

Thompson's Drug Store, Albany, Ala. (Adv.)

INCREASE PRODUCTION OF BEEF IN THE SOUTHEAST

By Carl G. Filler, Agent in Beef Cattle Extension.

Prepared by Extension Service, Auburn, Ala.

The livestock interests of the nation are confronted with the necessity of increasing beef production, and at the same time conserving grain. In the present emergency, the Southeast is the logical field in which beef production can be increased without the necessity of feeding large quantities of grain. In this section there are extensive tracts of unused lands fairly well adapted to grazing throughout the greater portion of the year.

Reports from all the Southeastern States indicate a very large current increase in the production of feed crops. Georgia, Florida, Alabama and Mississippi have planted something like 5,000,000 acres of velvet beans. This crop alone will add enormously to the supply of feed that will be available for stock. Something like as many tons of velvet beans will be produced as there are acres planted to this crop, and probably half of the can be most profitably used in feeding or wintering beef cattle, and would finish for the market something like 2,500,000 or 3,000,000 head of steers, or furnish enough grain for the wintering of three to four times that many females.

The feed crops produced in the Southeast this year should not be sacrificed on a glutted market, but should be used to increase the nation's meat supply, and, at the same time, more than double the profits of the producer. Practically all cattle, except a small percentage of the most inferior grade, should be fed on velvet beans and some roughage before being marketed, in order to avoid selling at the low price which grass cattle command.

Parties who have not sufficient cattle to make use of the feed they are producing this year should secure them as soon as possible, while they are being forced on the market at a low price, and run them in the velvet bean fields later on, or feed them out in the feed lot. However, this is only one of the ways by which beef production may be increased.

Present Emergency Demands Action. We are not growing as many cattle in the Southeastern States as it would be profitable to do, nor as many as we should grow. Changed economical conditions, resulting from the present emergency, now demand the immediate and fullest utilization of all agricultural resources. This means the use of all available grazing lands by the best female beef cattle that it is possible for us to secure.

The success which has attended the campaign for tick eradication, and the increased knowledge of the cattle industry in this section, justify a plan which promises quicker returns than by the slow process of grading up our common cattle by the use of pure-bred bulls.

The Southwestern Range Most Important Source of High-Grade Beef Cattle.

The Southwestern Range is today the most important available source of well-bred, unregistered beef stock. For years the ranchmen of the Southwest have used pure-bred bulls of the highest quality. At a time when good bulls could be purchased for around \$100, the large ranch companies were purchasing car loads of the pick of such herds as those of Messrs. Giddell & Simpson, Cornish & Patton, the Sothams, and the Vanattas, at prices ranging up to \$200, or even, in some cases, to \$250 per head.

In the past the range has retained all well-bred cows and heifers, disposing only of those of inferior grade and quality. At present the range has practically reached its maximum production, and every year large numbers of good high-grade heifers are being forced upon the market. This stock usually comes on the market in the fall. However, owing to the serious drought in a large section of Texas, many good cattle are now being forced upon the market and sold at a sacrifice. These cattle can be bought at reasonable prices, considering the quality and breeding.

United States Department of Agriculture Assisting.

To assist in saving females needed for breeding purposes, the United States Department of Agriculture has placed experienced men in the Southwest to locate cows and heifers that are likely to be forced upon the market. This stock will be graded according to age, quality, breeding and condition. The very best grade and quality can be purchased for 8 cents per pound. The cost of shipping will add about another cent per pound. This is the cheapest female stock that can be purchased for breeding purposes as calves from these cows and heifers will produce beef so much more economically than calves from our common or scrub cows.

The United States Department of Agriculture has also placed a man in the Southeast to co-operate with commercial organizations interested in the livestock development of this section and with the Extension forces of the various State Agricultural Colleges. The purpose is to locate such persons as will be able to handle this class of stock, and put prospective buyers in touch with present owners.

Southeastern Cattleman and Land Owners' Opportunity.

By taking advantage of this opportunity those desiring to stock large tracts of unused land can put themselves from six to a dozen years ahead in the cattle business. Persons interested in obtaining one or more car loads of steers or heifers should get in touch with their County Agricultural Agent, or correspond with Carl G. Filler, of the Alabama Extension Service, Auburn, Ala., or with the Animal Husbandry Division of the Bureau of Animal Industry, United States Department of Agriculture, Washington, D. C.

These cattle will come from tick-free areas, or will be dipped under Federal supervision, and freed from ticks before being moved interstate.

No. 666

This is a prescription prepared especially for **MALARIA or CHILLS & FEVER.** Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25

BANNER BOOSTER

(Continued from Page One.)

Patterson, Mayor E. C. Payne and Attorney Clifton Almon made effective talks here. The community of Hodge's Store joined in the merry making here with a vim and a great time was had, many ladies and girls gracing the occasion. Old and young "skipped the rope." Chas. Johnson did his great "bear dance," directed by H. S. Spencer and Mayor Payne. But the piece de resistance was a wrestling match between Gene Sivley and Mayor Payne, which resulted in a dog-fall, though his honor, the mayor, succeeded in "flopping" his young and stalwart antagonist. The good people of this community invited the Boosters to visit their town again next year and resolved to make it a big occasion, by having all the folks meet the Boosters and having a big dinner and they will make good, and the Boosters will be on hand to assist in making a big day and a big time.

At Oakville.

At Oakville, where the last stop was made, only a small crowd was present, but effective work was done here in meeting and knowing personally those who turned out to meet the visitors.

Not a hitch was made, not a delay. Dr. Thompson having so arranged matters as to facilitate everything tending to make the trip a success, except an oak stump that bent almost double an axle of a car, and to Frank Brown, Carlyle Blackwell, C. L. Saunders, Clifton Almon and others, the driver extends his most grateful thanks for the mechanical expertness and strenuous labor and efforts in repairing a car in a wrecked condition with nothing to work with but poles, stumps and a 5-pound hammer. The "village blacksmith," Mr. Brown, displayed an ingenuity and stick-to-itiveness that is found in few and the manager of the Albany-Decatur Daily will consider it a privilege to reciprocate at any time he may be given an opportunity.

Don't miss the display of the new fall line of ready-to-wear at Beckett Value Co. Next door to Morgan County National Bank.

NEW AERO MOTOR COMPLETE SUCCESS

ANNOUNCES SECRETARY BAKER IN FIFTEEN HUNDRED WORD STATEMENT.

Washington, Sept. 13.—The liberty motor, the airplane engine upon which the United States is relying to establish definite air supremacy over the Germans over the battlefields of France, has passed its final test and is a complete and gratifying success, Secretary Baker announced today.

In a fifteen-hundred-word announcement Secretary Baker told how all the best brains of American business and motordom had contributed its secrets and its achievements to the government to produce a liberty motor which is to carry the thousands of American airmen over Germany.

Mr. Baker says the motor is "now the main reliance of the United States in the rapid production in large numbers of high-power battleplanes for service in the war."

Back of the announcement stands the fact that American aviators in high-powered American-built machines will begin to appear in large numbers on the fighting lines early next year.

Secretary Baker coupled with his announcement a formal request to the press of the country to refrain from publication of any information regarding the liberty motor other than that included in his statement.

Hostile Reception For "Won't Works"

Douglas, Ariz., Sept. 13.—Twenty-four alleged I. W. W.'s arrived here today from Columbus, but only two succeeded in leaving the railway station. The others were compelled to remain on the train or walk out of town. They are en route to Elisee, where another hostile reception awaits them.

Insurance Bill Will Pass House Today

(International News Service.) Washington, Sept. 13.—The administration soldiers' and sailors' insurance measure will be voted in the house before adjournment tonight. Chairman Adamson of the interstate commerce committee, has served notice that he will insist on action today, even if a night session is necessary.

A want add will sell it.

HOPWOOD-PIERCE.

Miss Zyla Hopwood and Mrs Leonard Pierce were married on Sunday at the residence of the bride, at Lawrenceburg, Tenn., in the presence of relatives and a few friends, Rev. King officiating. Mr. and Mrs. Pierce arrived here last night, after visiting friends at Lewisburg and Fayetteville, Tenn., and will be at home at 433 Johnston street.

The bride is a daughter of W. P. Hopwood, a prominent jeweler, and is a most attractive young woman who will be welcomed to these cities. The groom holds a responsible position with M. L. Schilman.

A number of relatives of Birmingham and St. Louis attended the wedding.

MISS AMELIE THRONE IN RECITAL, ASSISTED BY FRANCES TODD.

Miss Amelie Throne appeared in a benefit recital for the Red Cross at the home of Mr. and Mrs. H. N. Binford, Wednesday afternoon. Her program was heard by a large and critical audience, and each pronounced it satisfactory. As a technician and interpreter she was masterful. The chosen composers were chiefly exponents of the modern medulatory styles of instrumental music, combining with them Hungarian, Polish and Finnish masters, expressing their most striking characteristics with an almost bold and frenzied power, making the keys sing out their richly harmonized themes.

Miss Frances Todd, the reader of the afternoon, gave extracts from "The Man Without a Country." This gifted girl slipped into her character with a naturalness that bids fair to reach perfection with added years.

MUSIC STUDY CHORUS.

The Chorus of the Music Study club is requested to meet with Mrs. W. R. Shelton Monday afternoon at 3 o'clock. Please bring with you the copy of the "Legend of Bregenz." Please be prompt.

Mr. and Mrs. H. T. Thurman and children, and Mrs. A. E. Runyan have returned from Indianapolis and several points in Kentucky, where they visited relatives.

Mr. and Mrs. W. E. Harbin have returned from Kentucky after a visit to relatives.

Mrs. W. H. Thompson and little daughter, Katie Marvin, have returned from Shelbyville, Tenn.

Master Edward Thompson has returned home from Christiana, Tenn.

Miss Katherine Roberts has returned home after a pleasant visit to Columbia, Tenn.

Mrs. W. T. Noakes, of Pensacola, Fla., and Mrs. Clara Sparks, of Athens, Ga., are at the bedside of their sister, Mrs. M. W. Murray, who is critically ill.

Miss Alice Stockton leaves this week for Judson.

Mrs. D. W. Speake has gone to Tuscaloosa. On her return she will be accompanied by her daughter, Margaret, who has been visiting her aunt, Mrs. Nella Pride.

Miss Margaret Clarkson has returned from Moulton.

Mrs. Fred Knight will leave Saturday for Washington to make that city her future home.

Mrs. Lund and grandsons, Harry and Charlie Malone, have returned from Montreat, N. C.

Mrs. A. Polytinsky and family, accompanied by Mrs. M. S. Barnett, will motor to Huntsville Friday for the day.

Mrs. W. F. Connors, of Florence, is visiting Mrs. Fred Knight at the home of Mrs. G. B. Johnson.

Mrs. B. S. Cortner, of Cortner, Tenn., is the guest of Mrs. T. A. Bowles and Mr. and Mrs. R. G. Cortner.

Mrs. Irwin Martin and son Dave, of Courtland; Mrs. Will Mitchell and Miss Armene Tweedy, of Florence, were guests at Trinity mountain dance last night.

MY OWN HYMN TO GREATER AMERICA.

(Composed and copyrighted 1917 by Chas. J. North.)

From the crests of Thy frozen mountains,

To the sands of Thy tropic sea;

In our many tongues and voices,

We are raising our hymn to Thee.

The stars with their glory, immortal,

Shine out from the measureless blue.

To gild Thy Flag with the story,

Of all that is brave and true.

The golden rod blooms in Thy valleys,

And the sage brush roots in Thy plains,

The pine looks out from Thy mountains,

In the sunshine, and snows and rains.

In wisdom Thy men grow braver,

In beauty, Thy women grow strong,

Thy children are learning, ever,

The battle of right with wrong.

As the springs run down to the rivers,

And the rivers flow down to the sea,

So the lives of Thy sons and daughters,

Flow down in their strength to Thee.

When the clouds of danger gather,

They will rally to guard Thy path.

Like the rushing of mighty waters,

And the storm in its whirling wrath.

We can see in Thy waving Emblem,

The symbol of all that is free,

And we lift it high in the heavens,

Where all in the world can see.

We pray that in mercy and goodness,

It colors shall stay unfurled,

'Till Thy radiant dream of justice,

Is the vision of all the world.

Miss Calhoun, of Selma, is back in the city ready for the fall term of the city schools to open.

Mrs. Anna Reynolds, of Nashville, will arrive Saturday to take up the school work.

Miss Rountree, of Birmingham, was a guest at Trinity mountain dance Thursday night.

Miss Amelia Troy has returned from Montreat, N. C., where she summered.

Don't miss the display of the new fall line of ready-to-wear at Beckett Value Co. Next door to Morgan County National Bank.

PERSONALS

H. H. Fraza of Dayton, Tenn., was the guest yesterday of Mr. and Mrs. F. B. Cartwright.

J. M. Stockton is the guest of his sister, Mrs. E. C. Simpson, at Laurens, S. C.

Dr. Tom Irwin was the guest of his sister, Mrs. W. T. Lowe, Wednesday, en route to Athens to place his daughter, Hilda, in the Athena college.

Marvin Tucker, of Birmingham, was the guest of friends in Albany Wednesday.

R. T. Aylor has returned from Virginia, where he visited his mother.

Baynard Malone and Charlie Malone, accompanied by "Old Retay," are at luka for an outing.

Frank Emens has recovered after a recent operation at the Benevolent hospital.

Ready-to-Wear at Beckett Value Co. Friday and Saturday, 14th and 15th. Mrs. C. O. Flippin, manager.

"Malone Gives Service"

Uncle Sam Urged To Sit In at the Allied War Council

(International News Service.)
Washington, Sept. 13.—Invitation to the United States to join the inter-allied parliament will be extended tonight. Franklin D. Roosevelt, leader of the majority party in the French chambers of deputies, will extend the invitation at a meeting of the house to be held behind closed doors.

New Gun Shows Both Ways.
An army officer has invented a gun which shoots both ways at the same time. The purpose of this arrangement is not to fight the enemy in the front and the rear at once, but to eliminate the recoil, and thus to save the time required in bringing the gun back to position for a second shot. The force exerted by the exploding powder in any gun is equal in both directions, hence the recoil, or "kick." By having a barrel open in both directions, by placing the charge of powder in the middle of the gun and by having a projectile of equal weight on each side of the powder charge, the gun itself is not moved by the explosion. The projectile fired to the front is an ordinary explosive shell. The counterbalancing is a charge of fine shot of equal weight. The shot loses its velocity and falls harmlessly to the ground within a few feet of the gun.

Plan to Double Destroyer Forces

(International News Service.)
Washington, Sept. 13.—The appropriation of \$350,000,000 by congress for the construction of destroyers will set in motion the most gigantic and speediest ship-building program ever undertaken by any navy. Secretary Daniels said today the present destroyer forces of the United States will be more than doubled. The president already has given his approval to the appropriation.

BRITISH GENERAL A GERMAN, BERLIN SAYS.
(International News Service.)
Copenhagen, Sept. 13.—Much space is devoted by the Berlin press to General Freyberg, the youthful New Zealander, who recently was placed in command of a British brigade and promoted to the rank of a major-general. The papers claim that the general, who is only 27 years old and greatly distinguished himself at Gallipoli, in Mesopotamia and at Arras, is actually a German. It is said that his father never acquired British citizenship after he emigrated to New Zealand more than thirty years ago.

PROBLEM OF CAT'S TAIL WORRIES SCIENTISTS.
(International News Service.)
New York, Sept. 13.—Why does a cat have a tail? Ponderous scientists and savants are seriously considering this feline quality. One scientific paper says: "No one can gamsay the fact that a tail is a useful ornament. Imagine a cat without a tail. The cat without one is a sorry sight."

Again, what use has a healthy child for a cat without an appendage? We'd have to rewrite all our joke books. Yet, some cats do not have this tender appendage, as witness the Manx cats. Yet Manx cats are not generally popular with the proletariat.

According to W. D. Matthews, of the American Museum of Natural History, the tail was a necessary organ for the aquatic and amphibious ancestors from which the high animals are descended. When they took to terrestrial life and to walking on all fours the tail became more or less superfluous.

But, why does a cat have a tail?

AMUSEMENTS

ALLA AXIOM GIVES MATINEE FOR LADIES ONLY TOMORROW.

Alla Axiom, the man of mystery, who is packing 'em at the Masonic theatre this week, will give a special ladies' matinee Friday afternoon. Men will not be admitted to this performance, and the ladies will be given an opportunity to ask questions they have hesitated about asking in a mixed audience. Axiom requests that these questions be written at home and brought to the theatre, as he expects to answer at least one question for every lady present.

Stuart Holmes, Greatest Villain of the Screen, in His Masterpiece, "The Derelict," at Delite and Star Theatres Friday.

Fidelity to detail is everything in portraying a character like that of Teddy Brant in "The Derelict," says Stuart Holmes, the William Fox star who plays that role. To be able to give just this air of perfection to his work Mr. Holmes spent two weeks on New York's Bowery living with men of the type he was to portray.

There is little difficulty in hitting off the traits of Teddy Brant, the well-to-do man about town. In the early episodes of the film. Most persons have known young men of his type. But when Teddy's gay life makes him a human derelict, one of those bits of human hotsam and jetsam known as a "bum," true portrayal lies only in knowing how such men act, and their points of view and emotions.

To get this insight into the life of the underworld, Stuart Holmes went to the Bowery. He spent his nights in cheap lodging houses, he took his meals at free lunch counters, he hopped with the cast-offs in the "back rooms" until closing time. With them he was pushed out into the cold night to shuffle along over the cold pavements or through snow to a decent bed.

Mr. Holmes came to know personally the policeman's "move along." He grew accustomed to the unfriendly glances of the more fortunate, to the gloating curiosity of "slummers." He came to regard society with a "bum's" eyes.

Later Mr. Holmes spent several nights in a Bowery police station. There he saw how the "bum" behaved when hauled before a police lieutenant, and when thrown into a cell for the night.

The time spent at this study of life was worth all it cost in comfort. Mr. Holmes says it gave him details in the dress of "bums," which make his make-up so real. It also enabled him to play the part of one of these unfortunates with dramatic sympathy and not as a burlesque.

ALBANY RED CROSS.

Albany Red Cross chapter meets this afternoon at 4:30 o'clock at the Y. M. C. A. Members are urged to attend. Important matters to be acted upon.

L. F. GOODWIN, Chairman.

BIRTH.

Born, to Mr. and Mrs. Thomas Warren, a daughter—Katherine.

Children's Prattle.

At times it cannot be denied the questions of children become irksome, but who would wish a child to ask no questions? Julius Sturm tells in one of his pretty fairy tales how a grandfather, driven into impatience by the constant questionings of his grandchild, exclaimed, "I wish your tongue were out of joint!" But when unexpectedly his wish was fulfilled and the child became dumb how he joyfully exchanged one of the two years which an angel had prophesied he was yet to live for the privilege of hearing the little one's prattle again!—Exchange.

A Bad Case.

The cynical man was staring through the window at the chesty man swinging down the street. "Does Chesty know anything?" asked his companion.

"Know anything?" said the cynical man. "He doesn't even suspect anything."—New York Times.

Wasted Energy.

It is none of our business, but it does seem that a porch climber wastes a lot of energy when he might just as well get in by a window on the first floor.—Arkansas Gazette.

AVOID ICE-WATER.

HETTY GREEN'S RULE.
(International News Service.)
New York, Sept. 13.—The health rules of Hetty Green, known in her lifetime as the world's richest woman, are public property today through the tax-transfer proceedings brought last her estate. Here they are:
"Eat slowly."
"Don't drink ice water."
"Keep out of draughts."
"Don't stay up all night."
In rolling up her millions, Mrs. Green—
Never speculated in Wall street.
Never lent money on call or in "the
